Project Title: Update to the 2018 UC San Diego La Jolla Campus Long Range Development Plan

Project Applicant: University of California San Diego

Parties Undertaking Project: University of California San Diego

Project Location: University of California San Diego, La Jolla Campus

County: San Diego County

Project Description: The La Jolla Campus Long Range Development Plan (2018 LRDP) was approved by the Regents of the University of California (UC) in November 2018. As a result of high demand and to support the shared goal of the State of California and the UC system to increase access to higher education, UC San Diego has experienced higher rates of enrolled students and associated campus population growth than was projected at the adoption of the 2018 LRDP. The proposed Update to the 2018 LRDP (Amendment #1) revises the previous campus population growth and development projections, makes minor land-use modifications, and extends the planning horizon year from 2035 to 2040. Amendment #1 proposes a total campus population of 96,300 (including students, staff, and faculty) and development of up to approximately 36.2 million gross square feet of building space by the 2040 planning horizon, increases of approximately 45 percent and 30 percent, respectively.
