

Update for Community Groups – May 2018

Please note the underlined text in the electronic version of this update contains active links that provide additional information on the subject matter.

PROJECTS

Location of instructional and research facilities, as well as necessary campus support facilities, such as housing and parking, is directed by UC San Diego's Long Range Development Plan (LRDP), which is prepared in response to campus enrollment and population projections. Available on the Planning, Design and Construction website at <http://plandesignbuild.ucsd.edu> is the Campus Map which is an interactive map where major campus projects are identified by location and include a brief project description.

PROJECTS IN THE PIPELINE

[NORTH TORREY PINES LIVING AND LEARNING NEIGHBORHOOD PROJECT](#)

Project work associated with the North Torrey Pines Living and Learning Project is anticipated to begin work late June.

The proposed project would redevelop a 13-acre site containing existing surface parking on the west campus, just southeast of Muir College Drive from North Torrey Pines Road. The proposed project would construct six buildings positioned around central community open space areas and a 1,230-space underground parking garage. The building program includes the following uses: housing for approximately 2,000 undergraduate students; residential support and community retail; academic uses; and administrative uses. The proposed project would exceed the requirements within the UC Sustainable Practices Policy, oriented toward energy efficient and green building standards, and would seek to achieve a Leadership in Energy Efficient Design (LEED) Platinum rating from the U.S. Green Building Council.

2018 UC SAN DIEGO LONG RANGE DEVELOPMENT PLAN (2018 LRDP)

The University of California, San Diego (UC San Diego) is updating its existing 2004 Long Range Development Plan (LRDP) for the La Jolla campus, previously adopted by The Regents of the University of California in September 2004. The LRDP acts as a general land use plan that guides the physical development on campus.

The 2018 LRDP will address anticipated growth in student enrollment and associated expansion of faculty, staff, academic and ancillary programs through the year 2035, in the context of UC San Diego's Strategic Plan. Accordingly, UC San Diego is also preparing a new Program Environmental Impact Report (EIR) to address the effects of adopting the 2018 LRDP.

The University is anticipating the 45-day public review period for the Draft EIR to begin in June 2018. The exact date will be communicated to the leadership of the Community Groups once the date for public circulation is identified. A public meeting will also be held during the public review period, which is yet to be identified.

More information on the 2018 LRDP process can be found at the following webpage: <http://lrpd.ucsd.edu/campus/index.html>
