

Community Group Update – November 2018

Projects

The location of instructional, research and campus support facilities, such as housing and parking, is directed by UC San Diego's Long Range Development Plan, which is prepared in response to campus enrollment and population projections. An interactive campus map illustrating major campus projects with brief descriptions is available at maps.ucsd.edu.

TATA Hall for the Sciences

The grand opening for the TATA Hall for the Sciences is anticipated to occur later this month.

Located in the campus's Revelle College Neighborhood, the TATA Hall for the Sciences will provide opportunities for expanded research and teaching, as well as opportunities for collaboration with chemistry and biochemistry, and the home of the Kavli Institute for Brain and Mind.

The 132,000 square-foot project will include eight new wet and dry laboratories designed to accommodate up to 24 students each and will also feature several support spaces like equipment rooms, controlled temperature rooms, a satellite vivarium, procedure rooms, chemical storage rooms, tissue culture room and more. Academic office space to support faculty and postdoctoral scholars providing instruction and research in the building are also part of this new building, along with an auditorium and a Nuclear Magnetic Resonance (NMR) facility.

Founders' Celebration

UC San Diego's annual Founders Celebration commemorates the day the campus was officially founded in November 1960. This year marks the 58th anniversary of the University of California, San Diego.

At the Founders' Celebration, November 15-17, we will recognize all Tritons—those on campus, in the local community and around the world; undergraduate and graduate students; physicians, staff and faculty; alumni and friends—and our collective achievements. At home or abroad, we are *Tritons United*. We encourage you to attend one or more Founders' Celebration events below.
